

Current Monitoring Relay

CMR5-VFC

Description:

The Current Monitoring Relay is designed to monitor Current to equipment and can be set to switch the volt free contact at a set current, also there is an adjustable time delay to eliminate current peaks. It can also be used with a current transformer to monitor higher currents. It has LED indication and is Din rail mounting.

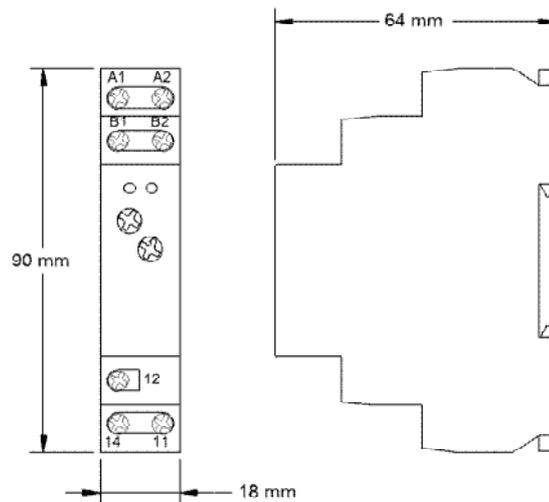

Technical Specification:

Supply voltage: 24-240Vac, or 24Vdc
Frequency: 50-60 Hz
Current range: 0.5 to 5 Amp
Time delay: 0.1 to 10 seconds
Contact rating: 10 Amps (AC1)
Contact : SPDT

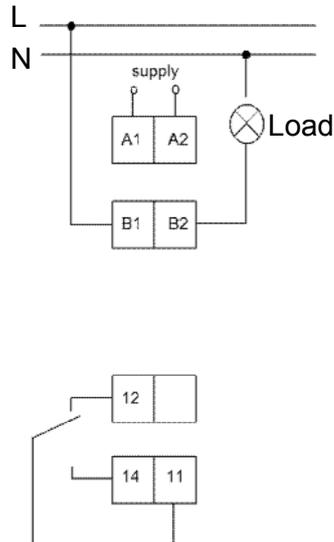

Features:

- Slim Compact design
- Din Rail Mounting
- Multi voltage supply
- Volt Free Changeover Contact
- LED Indication
- Adjustable Time delay

Dimensions:

Connections:

Order code:

CMR5-VFC Current Monitoring Relay 5 Amp
