

Leaded Transformer 25VA

PS-25-L

Description:

The PS-25-L Leaded transformer is fully encapsulated complete with connection leads for both primary and secondary connection also it is fully insulated making it ideal for mounting directly to a Fan Coil Unit

Technical Specification:

Output:	24Vac
Supply Voltage:	230Vac
Current rating:	25VA
Termination:	Flying Lead 90cm 2 core Flex
Mounting:	4 x 4.2mm holes

Order Code:

PS-25-L 230Vac to 24Vac 25VA Power Supply

Features:

- Panel mounting.
- Compact.
- Fully Insulated .
- 240Vac Primary, 24Vac Secondary
- 25VA
