

7" TOUCHSCREEN USER INTERFACE

The TP-UI-TS-7 central touch screen combines modern aesthetics, high performance, and excellent user experience to provide a networkable multi-zone user interface for comfort control adjustment, time scheduling, energy management, and more when used alongside the Titan NetMaster range, fan coil and underfloor heating controllers.

The fully capacitive 7" touch screen, offers adjustment of all comfort conditions within a property with flexible time/holiday schedules and combines this with Titan's smart metering energy platform displaying current and historical energy usage.

SPECIFICATION

Operating system:	Android
Display:	7" capacitive touch
Power supply:	24VDC or POE
Communications:	TCP/IP
Sensor inputs:	2 x 10K3A1
Operating temperature:	5-50°C
Operating humidity:	10-80% RH non-condensing
Mounting:	47mm single gang UK back box (Mounting bracket supplied)
IP rating:	IP20
Dimensions:	170 (w) x 85 (h) x 14 (d)* mm *from finished wall surface
Part Code:	TP-UI-TS-7

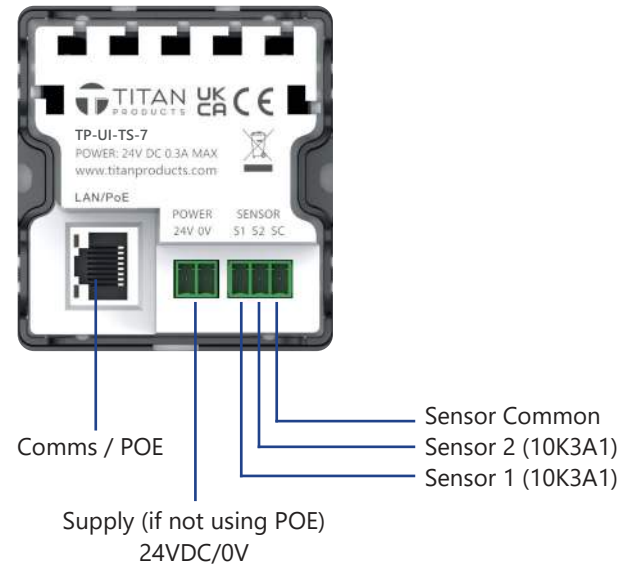

Draft product datasheet – final product may vary.

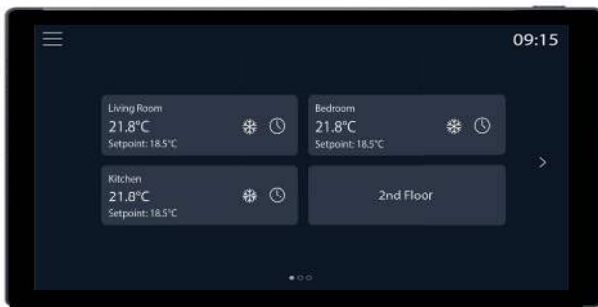

FEATURES

- Multi-zone user interface
- Group zones for simple UI navigation
- Intuitive time scheduling and holiday entry
- Fully compatible with Titan smart metering module
- 7" capacitive touch screen
- 2 x on-board sensor inputs
- IP based communications
- Proximity and ambient light level sensors for optimum screen display
